

CELLSTAR® Cell Culture Dishes

Cell Culture Dishes

- Improved cell adhesion through physical surface treatment
- Vents ensure very good gas exchange
- Sterile and user-friendly packaging
- Available in the sizes 35, 60, 94, 100 and 145 mm ø
- 8.7 to 145 cm² growth areas
- Also available without vents
- Easy stacking
- For excellent analysis by microscopy

Like all Geiner Bio-One products, cell culture dishes are manufactured according to our high quality standards. Dishes are available in a wide variety of different dimensions and growth areas. In the case of 58 cm² and 145 cm² dishes, an extra-high profile

with a height of 20 mm is available. A 94 mm ø hybridoma dish is also offered. The grid on the base bottom allows easy isolation of individual cells and the cultivation of a cell clone.

DNase-free
RNase-free
human DNA-free
non-Pyrogenic

non-cytotoxic
